Besides his widow he is survived by two daughters, Miss Marjorie Carr, of Blossburg; Miss Teresa Carr, of Clearfield, and three sons, Hugh, James and Joseph, of Pittsburgh. The remains were taken to Blossburg for burial in St. Andrew's cemetery, Rev. M. J. Kelly officiating.

On July 18th, at his home in Wilson Creek, Washington, James R. Hathaway, son of George W. and Betsy R. Hathaway, aged 68 years, passed away. He was born and reared in Tioga but left there 38 years ago. He is survived by three brothers, one of whom is W. W. Hathaway, of Elmira, and two sisters, one of whom is Mrs. A. H. Bunnell, of Fort Edward, N. Y.

—Last Friday night about 8:45 o'clock at Horseheads two masked men on a motorcycle held up an autoist, and robbed him of $45. The description furnished the police states that one of the bandits wore leggings, a black shirt, no coat and a black cap with leather front piece, while the other, a short man, wore a dark coat and black shirt. They rode a Harley-Davidson motorcycle.

—Frank H. Ridall, aged 13 years, son of M. and Mrs. Frank A. Ridall, of Elmira, was drowned shortly be-2 p. m. Thursday afternoon, in Seeley Creek, about 500 yards down stream from the Maple Avenue highway bridge. —While working on the tipple at Morris Run last Thursday Thomas Mitchell had his head caught in a large wheel, which is used to dump the coal cars as they come from the mines, and was strangled to death. Mr. Mitchell worked alone and in some unknown manner he was caught in the wheel and when found by some of the miners he was dead. He is survived by two brothers and one sister.

—Mrs. Julia Crowell, aged 89 years, widow of the late J. N. Crowell, died Wednesday morning, August 8, at about 2 o'clock, at the home of her daughter, Mrs. G. C. Marion, at Ulysses. She is survived by two sons, C. R. and F. A. Crowell, and one daughter, Mrs. G. C. Marion; also by two sisters, Mrs. Vine Johnson, of Harrison Valley, and Mrs. C. T. Hallock, of Wellsville. The funeral was held Friday at 10 a. m., Rev. J. A. Lowry officiating.

Jessup, of Thurston, and Mrs. Geo. Sims, of Hornell, and five brothers, Charles Martin, of Cowanesque, Pa., George Martin, of Portland Mills, Pa., John Martin, of Rochester; William Martin, of Jasper, N. Y., and Alfred Martin, of Addison.

—When the injuries of Archie Saxton's leg were dressed for the first time since the accident which cost his other leg, it was found that no bones had been broken, although it had been announced from the hospital that he had suffered a compound fracture. And it was also learned that the amputation of the other leg is of such a character as to permit of the fitting of an artificial limb quite comfortably. It is now thought that he will be able to be removed to his home here in a shot time.—Tioga Argus.

—President A. P. Morrow, of the Willys-Morrow Co., of Elmira, has just made the announcement that three new buildings will be added to the plant immediately. The new buildings will be erected for airplane purposes so that the increased business, due to the great amount of motor work that will be done for the Curtiss Aeroplane Company, can be handled expeditiously without interfering with the regular work for the Willys-Overland Company. The new buildings will have over 73,000 feet of floor space.

—A car owned by Mrs. Daniel Milsom, of Allport, Pa., who was a guest at the residence of her brother, Secretary of Labor William B. Wilson, in Blossburg, was badly damaged when it collided with a box car at Hannibal street crossing in Blossburg the other day. The Erie freight was making up the train and obstructed the view up the track. The automobile was going up Morris street and turned into Hannibal street over the tracks, and as it came from back of a passenger coach onto the switch it was struck by a box car that was being let down, and carried for some distance. The driver, who stuck to the car, was uninjured.

—Mrs. Agnes S. Gilmore, widow of the late James Gilmore, died August 4th, at her home in Blossburg. She had been ill for the past three years. She was born March 25th, 1854, in Blossburg, and had spent most of her life in and near that borough. She is survived by two sons, John, of Arlington, N. J., and David, of Iowa City, Iowa. —The plant and stock of the Newark Cheese Company has been purchased by Dudley Humphrey, Harry E. Smith and M. J. Handwerk, of Galeton. Some of the former stockholders lived in New York and some in Chicago. The following officers were elected: Dudley Humphrey, President; Harry E. Smith, Vice President and General Manager, and M. J. Handiwerk, Secretary and Treasurer. It is the intention of the new company to change the name from The Newark Cheese Company to the Galeton Dairy Products Company, as there is a company by the latter name operating in New York state and the similarity of names might lead to confusion. Harry E. Smith has been the very efficient superintendent of the Newark Cheese Company since the plant started here a year ago.

—A special election was held last week Monday to determine whether or not Elkland should issue bonds to pay its share of the proposed paving. The vote was not all out, in the town, some being indifferent but those who did vote were almost unanimous in declaring for a paved Main street. Votes cast for paving numbered 159; against paving 11. Work on the road will be begun at once providing the State can get a contractor to take over the work at a reasonable figure. In New York State it has been so difficult to obtain labor, that letting days for contracts for roads, frequently find no bids in at all. It is not so much an increase in the cost of materials, though thay have advanced, but to get men to do the common labor the job entails.

—The County Commissioners have received an extract of the dog law of 1917, which provides that the assessors make a list of all the dogs found in the county, which is returned to the County Commissioners and is later forwarded to the County Treasurer. The assessor does not distribute the dog license tags, as in former years, but simply makes a list and furnishes this to the County Treasurer. It will then be the duty of all owners of dogs to appear at the treasurer's office and pay for licenses. The law provides that on or before the day of January, 1918, and on or before the 15th of January of each year thereafter, the owner shall apply to the County Treasurer for a license for such dog. The license fee shall be the only license or tax required for the ownership or keeping of dogs. This law prohibits the levying of a special dog tax by a borough or any precinct.—All licenses are void after the fifteenth day of January of the following year.

—Mark Adams, who was injured in an automobile accident at Groton, N. Y., about 5 weeks ago, is still at the Ithaca hospital. His back is broken and his living for four weeks and at no time being unconscious so that he could not recognize his surroundings is a wonder to physicians. As the result of a consulation of the case of Adams, it is likely that an operation will be performed within the next three weeks. "Dr. Whitney of Rochester, a well known specialist, has been called into consultation with Dr. J. W. Judd, the attending physician. After a thorough examination of the fracture Dr. Whitney, recommended the operation. Whether or not an attempt will be made to set the fracture will depend on Adam's condition. If his condition can be strengthened the operation will be performed about three weeks from now. If he survives the operation it is believed he will recover. Mr. Adam's home is in Renovo. He formerly resided in Knoxville. Later—Mr. Adams died since the foregoing was written.

—Through the formation of a new coal company, in which Elmira, Waverly and Arnot men are interested, about two million tons of coal in the vicinity of Arnot is to be reclaimed and put on the market. The company is to work out the good from a huge pile of waste from the mines. The extravagance of other years is shown in the history of the growth of this pile. Fifty or sixty years ago, when the particularly fine Arnot soft coal was being mined, this two million tons of semi-bituminous, now known to be very fine steam coal, was piled up as waste in order to reach the soft veins. There were two or three stratas of coal in the Arnot field running in layers two to three feet thick of the semi-bituminous, and then a layer of the bituminous, which at that time was the objective of the miners. Thus the semi-bituminous was cast aside and has been piled for a half century waiting for the day its value should be recognized. Steam shovels, crushers, carriers, etc., have been placed on the pile and five or six car loads are being shipped daily. Soon the production will be 50 or 60 carloads a day. The coal has been tried out by several large concerns and is pronounced to be very good.

—One young woman was killed and ten persons were so seriously injured that several are momentarily expected to die, when a large touring car whirled down a steep hill near the upper falls of the Genesee river Friday night near Portage, N. Y., and crashed over an embankment, rolling over and over into the river. The dead girl is Miss E. Tomanovich, of Rochester. Among the injured are: The driver, John Torrey; Harry Boucher, of Batavia; Madeline Lucy, Kenneth and Charlotte Michael, of Leroy; Miss Annabelle Miller, of Rochester, and three others. Seventy-four guardsmen under command of Capt. Karl Kaffenberger saw the accident and hastened to the scene to aid in the rescue work. Tourists, out to return after a day at Letchworth park, clambored down the cliff and with pilolws and ropes improvised stretchers on which the injured were borne a short distance to the Glen Iris inn. All physicians to be reached were summoned to the scene. Just how the car happened to plunge off the embankment only could be speculated upon. Soldiers who examined the tracks declared that the large load of passengers had put a severe weight on one side of the car, resulting in its swerving to one side of the road. It is also believed that the brakes may have failed to work on the sharp grade. Several victims were rescued from the water.

Burned to Death.

Homer Russell, aged 45 years, of Blossburg, who has been working at the Taylor Chemical Mills at Penn Yan, N. Y., the past three months was fatally burned late last Tuesday afternoon when a large chemical still exploded, enveloping him in flames and burning off practically all of his clotnes, including his shoes. When rescued by his fellow employees he could not be recognized, his hair having been burned while his body was covered with blisters.

When the still exploded the burning sulphur was blown several hundred feet setting fire to everything it struck, and as a result the workmen had a difficult time trying to extinguish the fire that caused considerable damage. William Osborne who had just started to work at the mill was burned about the face and hands. Mr. Russell died a few hours after the accident.
